Strumenti taglia smalto

Usati per togliere i residui di smalto dopo la preparazione del moncone con la fresa. Si usano inoltre anche per rifinire il moncone a 90° e togliere i sottosquadra al fine di poter inserire la capsula senza che ci sia possibilità di successive penetrazioni di corpi estranei.

Schmelzinstrumente

Instrumente zum Entfernen von Zahnschmelzresten nach der Vorbereitung des Zahnstumpfes mit dem Zahnfräser. Diese Instrumente kommen auch bei der 90°-Feinbearbeitung des Zahnstumpfes und beim Ausgleichen von Vertiefungen zum Einsatz, um das Eindringen von Fremdkörpern nach Aufsetzen der Zahnkrone zu verhindern.

Enamel Instruments

Instruments used to remove enamel residues after the stump has been prepared with the milling tool. These instruments are also used to shape the stump to a 90° angle and to smooth the area around its side in order to apply a tight crown that keeps foreign bodies from penetrating.

Instruments à émail

Instruments utilisés pour enlever les résidus d'émail après la préparation du moignon avec la fraise. Ils sont également utilisés pour parfaire le moignon à 90° et enlever les sous-équerré afin de pouvoir introduire la couronne sans que des corps étrangers puissent ensuite s'introduire.

26
Escavatori

Strumenti usati per asportare grosse masse di dentina calcificata.

Excavatoren

Instrumente zum Entfernen von großen Mengen von verkalktem Zahnbein.

Excavators

Instruments used to remove large chunks of calcified dentine.

Excavateurs

Instruments utilisés pour enlever de grosses masses de dentine calcifiée

28
Scalpelli e lime per osso

Usati per intervenire sull'osso della mandibola in caso di operazioni chirurgiche e di implantologia.

Meißel und Knochenfeilen

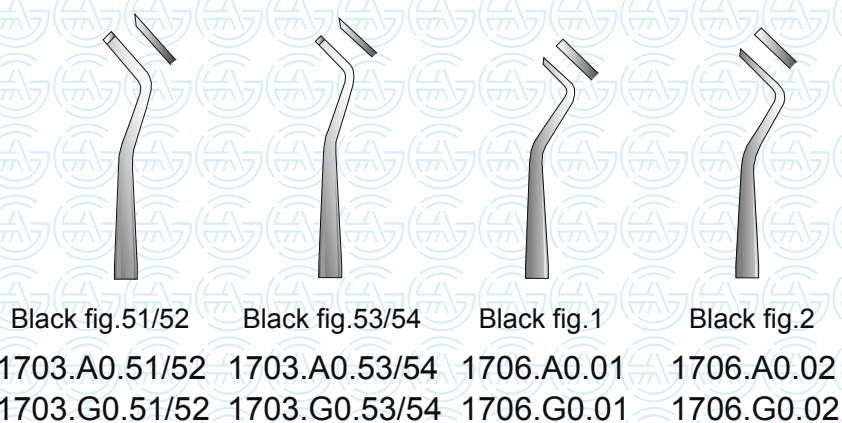

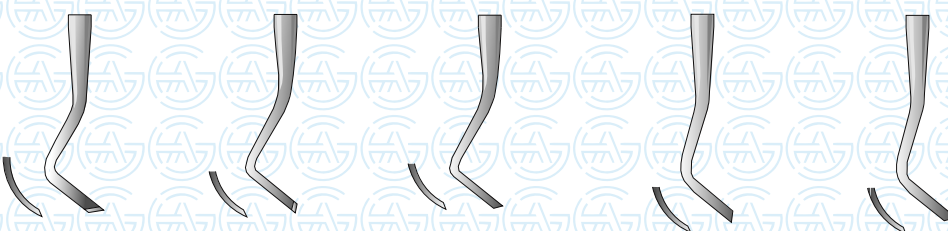

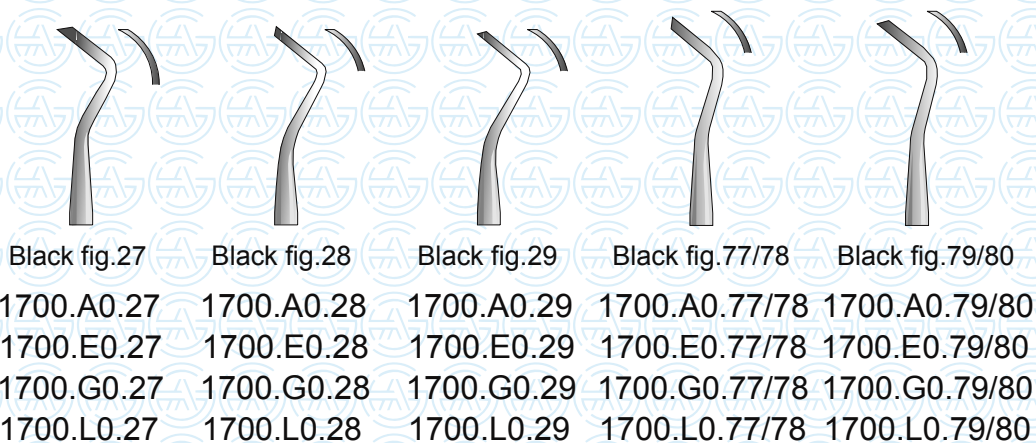

Instrumente, die bei chirurgischen Eingriffen am Kieferknochen und bei Implantationen zum Einsatz kommen.

Bone chisels and files

Used for working on the jawbone during surgical operations and when installing implants.

Ciseaux-burins et limes osseuses

Pour intervenir sur l'os maxillaire en cas d'opérations chirurgicales et d'implantologie
